TO: The Registrar
Environment Court
Christchurch

AND TO: Environmental Defence Society Incorporated (the **Appellant**)

1. The New Zealand Sport Fishing Council Incorporated (**NZSFC**) wishes to be a party pursuant to section 274 of the RMA to the following proceedings:

Environmental Defence Society Incorporated v Marlborough District Council

Nature of interest

2. NZSFC is a person who has an interest in the proceedings which is greater than the interest that the general public has because:
 - a. NZSFC a representative body for recreational fishing interests in New Zealand. NZSFC has 55 affiliated clubs with 36,200 members nationwide.
 - b. NZSFC takes an active role in fisheries management and research. NZSFC has made extensive submissions to MPI and Mfish concerning fisheries management and policy.
 - c. The issues raised in the proceeding affect the interests of recreational fishing in Marlborough and engage with issues concerning fisheries management and policy.
3. NZSFC is not a trade competitor for the purposes of section 308C of the RMA.

Extent of Interest

4. NZSFC is interested in the parts of the proceeding that relate to Chapter 8 Indigenous Biodiversity and may result in additional regulation of fishing activities, including in particular:
 - a. that part of the appeal seeking a new policy and rule for habitat-specific bottom lines for Marlborough's seabed habitat; and

- b. that part of the appeal concerning the approach to identification and protection of significant biodiversity in Policy 8.1.3, Policy 8.2.2, Policy 8.2.8 (now 9), 8.M.3.

Relief Sought

5. NZSFC partially opposes the relief sought in the Appeal because, to the extent that the relief would impose controls on low impact fishing methods, the relief:
 - a. is inconsistent with Part 2 of the RMA;
 - b. does not enable social, economic and cultural wellbeing;
 - c. is not necessary or appropriate to maintain and enhance indigenous biodiversity, including in terms of section 32 of the RMA.
6. NZSFC seeks that any relief sought in the Appeal which would regulate low impact fishing methods be declined.
7. NZSFC partially supports the relief sought because, to the extent that the relief would impose controls on high impact fishing methods, the relief
 - a. is consistent with Part 2 of the RMA;
 - b. enables social, economic and cultural wellbeing;
 - c. is appropriate to maintain and enhance indigenous biodiversity in terms of section 32 of the RMA.
8. NZSFC seeks that any relief sought in the Appeal which would regulate high impact fishing methods be upheld.

Mediation

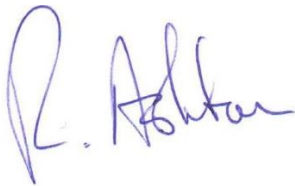

9. NZSFC agrees to participate in mediation or other dispute resolution of the proceedings.

Service

10. A copy of this notice has been served on the Respondent and Appellant.
