URGENT - OFFICIAL INFORMATION REQUEST – TARAKIHI DEEMED VALUE RETURNS

Dear Dan

Fisheries New Zealand has announced a review of selected eastern tarakihi stocks. The discussion document released yesterday provides no details on deemed value returns. The New Zealand Sport Fishing Council ask that FNZ urgently provide relevant information about catch in excess of the Total Allowable Commercial Catch (TACC) and deemed values applied in the main tarakihi (TAR) fisheries.

Pursuant to the Official Information Act 1982 we urgently request for TAR 1, 2, 3 & 7 –

1. The annual totals by Quota Management Area (QMA) and fishing year since 2000-01 for the following:
 - a. TACC.
 - b. Commercial catch.
 - c. ACE carried over to the following year.
 - d. Tonnes of TAR deemed.
 - e. Value of deemed TAR paid.
 - f. Value of deemed TAR not paid.
2. Trends in the number of deemed value invoices issued and deemed receipts since 2001.

Please acknowledge this request and forward electronic copies of any documents to

secretary@nzsportfishing.org.nz. Hard copies can be delivered to PO Box 20-319 Glen Eden Auckland 0641.

Any correspondence related to this request, or any requests for further information can be made to our secretary, Helen Pastor, at secretary@nzsportfishing.org.nz.

Yours faithfully
Peter Campbell
New Zealand Sport Fishing Council
