Our Ref: **APP-126155**

To whom it may concern

Notice of withdrawal of application to dredge Clive River. APP-126155

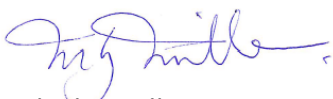

Authorisation No:	Activity Description:	Activity Location:
AUTH-126690-01	To carry out dredging works in the bed of the Clive River, including within the Coastal Margin.	Lower Clive River, Clive
AUTH-126691-01	To take and use surface water from the Clive River (including from within the Coastal Margin) during the dredging process; and to undertake activities which contravene Part 3 (reg. 54) of the NES-F, being the taking of surface water within, or within 100 m setback from a natural wetland.	Lower Clive River, Clive
AUTH-126688-01	To discharge dredging material from the Lower Clive River to land that may enter water, including within the Coastal Margin, and 100 m of a natural inland wetland.	Lower Clive River, Clive
AUTH-127746-01	To deposit dredged sediment in the Coastal Hazard 1 Zone.	Lower Clive River, Clive
AUTH-126689-01	To disturb the foreshore and seabed within the Coastal Marine Area by dredging the bed of the Clive River.	Lower Clive River, Clive
AUTH-127748-01	To deposit more than 50,000m ³ of dredged material on the foreshore and seabed within the CMA.	Lower Clive River, Clive
AUTH-127749-01	to take surface water from the CMA within SCA11 (Significant Conservation Area 11 – ‘Waitangi Estuary’) during the dredging process.	Lower Clive River, Clive
AUTH-127748-01	To place a structure (the cutter-suction dredge discharge pipeline) in the CMA and the associated occupation of space.	Lower Clive River, Clive

This letter is to inform you that the Hawkes Bay Regional Council has withdrawn its application to dredge the lower Clive River and to discharge the dredged material onto the adjacent shoreline.

The processing of the application has now stopped.

This means that the matter will not proceed to a hearing and the activity will not proceed.

Yours faithfully,

Malcolm Miller
Consents Manager
Policy and Regulation Group
