

Nationals 2023 – updated

Information re VHF reporting

Annette, from Far North Radio and Sea Rescue ZMH37, will be available to record catches for the Nationals from 4.00pm each weekday afternoon and from 2.30pm on weekend days for the duration of the tournament.

A reminder will go out at the 0735 sked each morning and she will do her utmost to have details to the clubs by 6pm. If the anglers call is late then the information will go out the next day.

Far North Radio VHF range is:

60 Cavalli Islands to North Cape

61 North Cape to the Three kings Islands

02 Whangapae north if anyone ventures down the west coast.

VHF Weather forecasts and skeds: 0735, 1335, 1735, 1935

If anyone team, with the right tickets and experienced crews, venture outside VHF coverage, we also have a SSB sked on 4417 between 1900-1930

It would be helpful to email secretary@nzsportfishing.org.nz prior to the event the names of the teams who plan to fish at the Kings so Far North Radio can be advised early.
